

Effective sale of business assets and inventory

Universal Trading Center

Russia is a big country. And there are many big construction projects in different parts of the country.

When the construction project is completed, the question arises – how to sell the property that is no longer needed?

There is an effective solution:

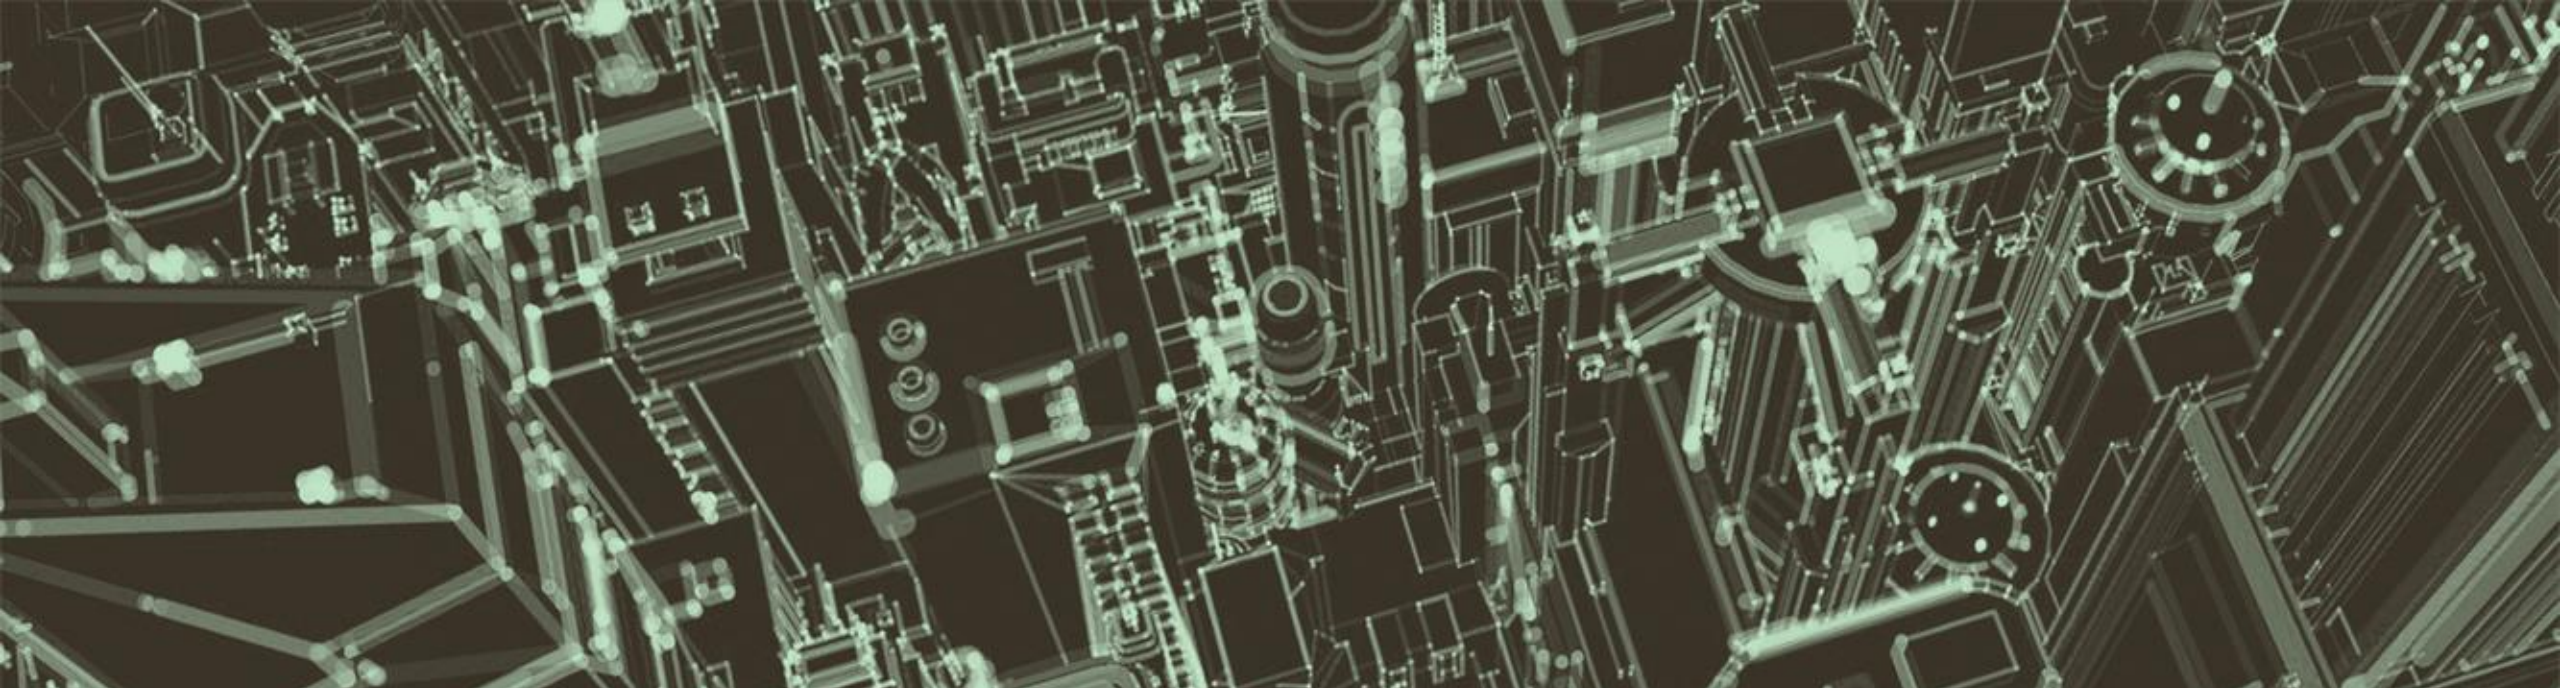

The selling on online auction with intensive marketing support and promotion.

Sales technology:

- Placement of detailed information in a specialized online resource for the sale of business assets
- An auction on the electronic trading platform
- Marketing of selling lots in social services (social media marketing)
- Direct marketing: direct offers to bid for all potential buyers.

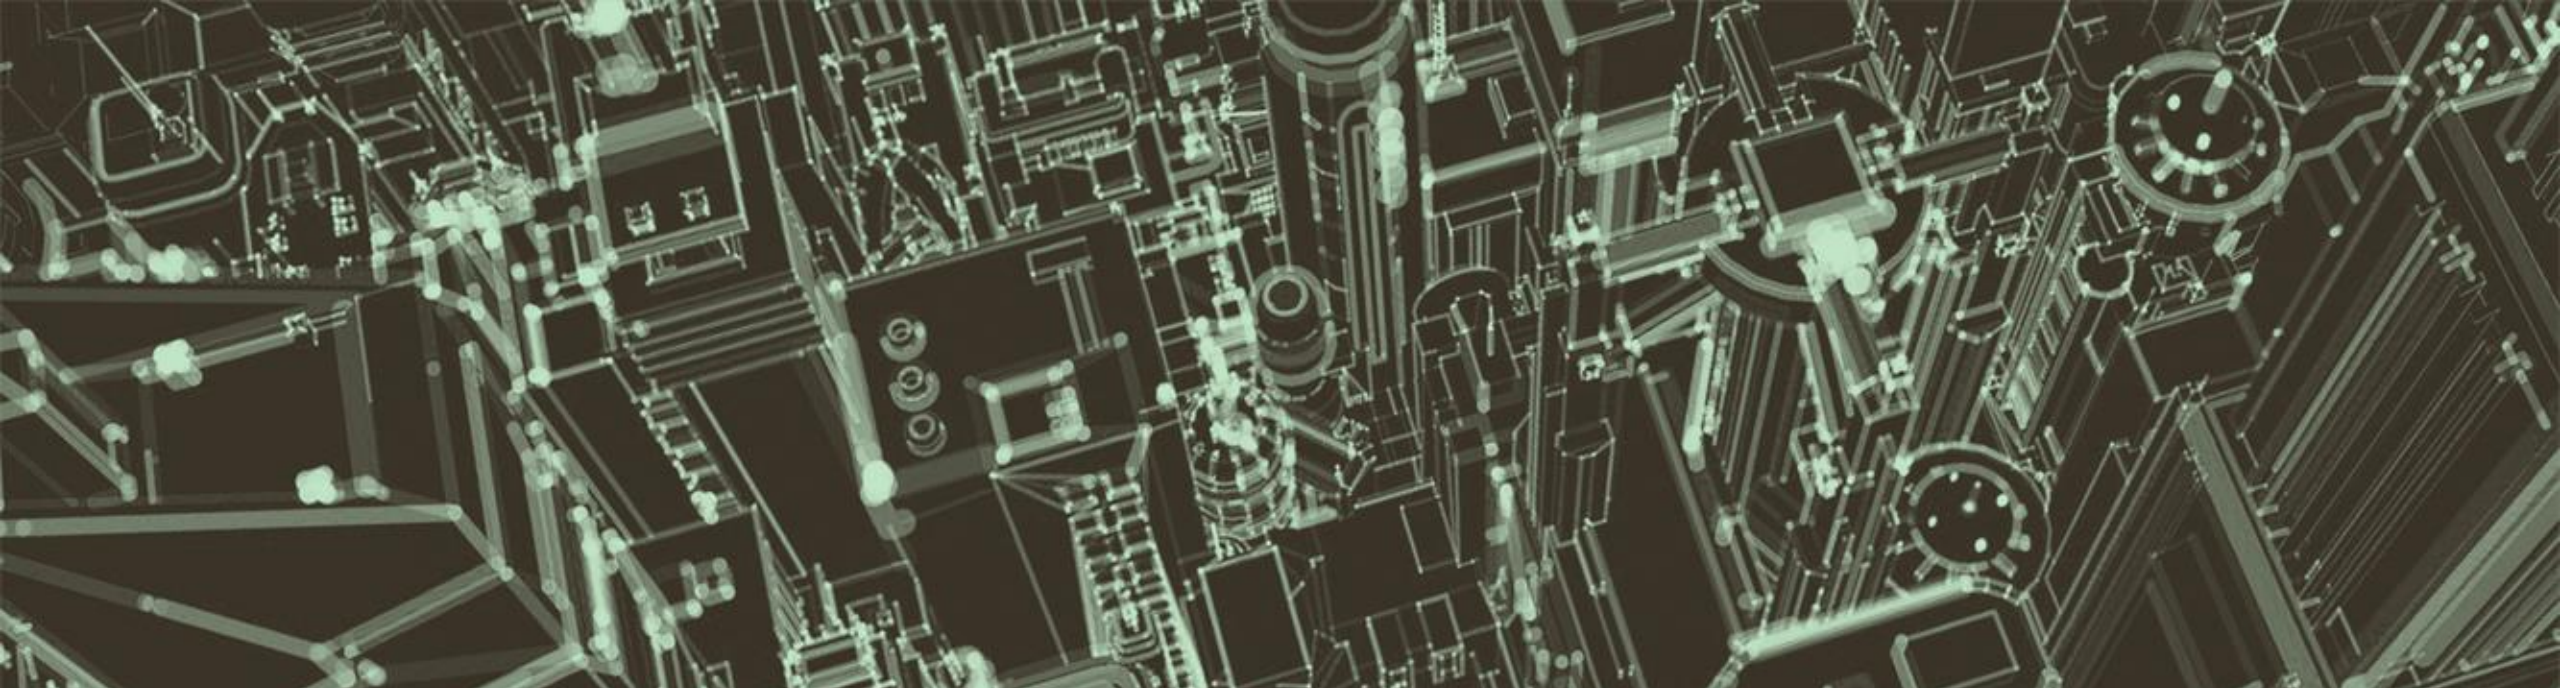

The advantageous of the solution:

- Maximum transparency of the sale process
- Low commercial costs from the owner of the property
- Low costs on advertisement and promotion
- Maximum coverage of potential buyers
- Possibility to make a deal to buy by the distance, online

We have an experience of auction trading more than 10 years
